

# Weeds Net Series:

## 用途: Use:

可以阻止农作物地里杂草的生长。坚固并且透水的特征，能使适量的空气和水分进入地下，令植物生长茂盛。它的绿颜色也使它特别适合用于公园和街道。

Polypropylene mulching sheet, it prevents weed growth among the crops. Strong and porous, it allows the passage of air and water to the ground underneath, thus fostering plant growth. Its green color makes it specially suitable for use in parks and avenues.

可以减少地面水分蒸发，防止地表土层硬化的形成，防止果实、蔬菜沾染泥土，使之保持洁净和完整。

It also reduces ground transpiration. It prevents the formation of a crust on the topsoil and stops fruit and vegetables from being in contact with the soil, thus keeping them clean and undamaged.
