

## Following are the unique attributes of EOT Cranes:

- Optimum design of the structure avoiding dead weight and reducing the cost of the equipment
- Very much suitable for power house cranes where these cranes are used for maintenance
- Economical Design by providing manual long and cross travel facility with a provision for using either an electric hoist or a motorized chain pulley block
- Low head room which in turn reduces the cost of the shed / building
- Designs are customized to match the budget of the customer
- Highly competitive Prices

# EOT CRANES

## Single Girder (Up to 25 Ton)

FORZA products are developed using finest quality raw material and components such as M.S sheets & angles, I beam, motors & brakes.
